**Your property is within the Santa Paula Creek Responsibility Area**

**Monitoring Beacon Site:** S03T\_TIMB (Timber Canyon at Highway 126)

**Santa Paula Creek Responsibility Area Water Quality Issues**

To comply with the Agricultural Conditional Waiver, the Ventura County Agriculture Irrigated Lands Group (VCAILG) developed a Water Quality Management Plan (WQMP) to address continuing water quality issues found during sampling. During WQMP development, Ventura County was divided into “Responsibility Areas” according to subwatersheds, drainage areas, crop similarities, and additional total maximum daily load (TMDL) requirements. The current WQMP did not identify any water quality issues that need to be addressed in your Responsibility Area.

**Required BMPs Survey Participation**

VCAILG members must complete a BMPs Survey for each parcel to document implementation of agricultural BMPs. The purpose of the survey is to report increased practices to protect and improve water quality related to the issues described above. Three surveys were conducted during this Conditional Waiver term. New requirements will be specified in the next waiver iteration.

**Required Documentation to be Kept On Site\***

\*Electronic or digital documents okay.

*Documentation provided by this handout:*

- VCAILG contact information: [vcailg@farmbureauvc.com](mailto:vcailg@farmbureauvc.com) or (805) 289-0155
- Link to VCAILG Water Quality Management Plan [www.farmbureauvc.com/issues/water-issues/water-quality/management](http://www.farmbureauvc.com/issues/water-issues/water-quality/management)

*Documentation to be compiled:*

- Proof of VCAILG membership (ID# listed at the top of this page, maintain enrollment confirmation email and/or invoices)
- Pesticide information required by other regulatory programs
- Copy of all completed BMPs Surveys (hard copy or email that was sent upon completion)

**Required Education**

All members must attend a minimum of two hours of educational training every year from December 1 through November 30. For each VCAILG ID, any landowner, operator or staff member may attend training to satisfy this requirement. All training sessions must be approved by the Regional Board. Documented attendance will be reported to the Regional Board by VCAILG on your behalf.

**Required Best Management Practices for the Santa Paula Creek Responsibility Area**

At this time, the Santa Paula Creek Responsibility Area does not have any water quality issues that require you to implement more Best Management Practices. Please continue to consider water quality and how best to keep water, nutrients, and pesticides from being transported off your property.
