Your property is within the Ventura River Coastal Responsibility Area

Monitoring Beacon Site: VRT_THACH (Thacher Creek at Ojai Avenue)

Ventura River Coastal Responsibility Area Water Quality Issues

To comply with the Agricultural Conditional Waiver, the Ventura County Agriculture Irrigated Lands Group (VCAILG) developed a Water Quality Management Plan (WQMP) to address continuing water quality issues found during sampling. During WQMP development, Ventura County was divided into “Responsibility Areas” according to subwatersheds, drainage areas, crop similarities, and additional total maximum daily load (TMDL) requirements. You are accountable for implementing the appropriate agricultural Best Management Practices (BMPs) to address the water quality issues in your Responsibility Area:

- Bacteria (*E. coli*)
- Legacy Pesticides (organochlorine pesticides, e.g., DDT)

Required BMPs Survey Participation

VCAILG members must complete a BMPs Survey for each parcel to document implementation of agricultural BMPs. The purpose of the survey is to report increased practices to protect and improve water quality related to the issues described above. Three surveys were conducted during this Conditional Waiver term. New requirements will be specified in the next waiver iteration.

Required Documentation to be Kept On Site*

*Electronic or digital documents okay.

Documentation provided by this handout:

- VCAILG contact information: vcailg@farmbureauvc.com or (805) 289-0155
- Link to VCAILG Water Quality Management Plan
www.farmbureauvc.com/issues/water-issues/water-quality/management

Documentation to be compiled:

- Proof of VCAILG membership (ID# listed at the top of this page, maintain enrollment confirmation email and/or invoices)
- Pesticide information required by other regulatory programs
- Copy of all completed BMPs Surveys (hard copy or email that was sent upon completion)

Required Education

All members must attend a minimum of two hours of educational training every year from December 1 through November 30. For each VCAILG ID, any landowner, operator or staff member may attend training to satisfy this requirement. All training sessions must be approved by the Regional Board. Documented attendance will be reported to the Regional Board by VCAILG on your behalf.

Required Best Management Practices for the Ventura River Coastal Responsibility Area

Implement any Required BMPs, then select additional BMPs to address the water quality issues in your RA, and expand your usage of existing BMPs, if feasible.

Water Quality Issues		BMPs	Implemented?
Bacteria	Legacy Pesticides		
Wet Weather	Wet Weather		
<i>Source Control BMPs</i>			
	x	Reduce bare soil in production area with cover crops , gravel, mulch , etc.	<input type="checkbox"/>
	x	Minimize erosion on sloped areas with contour farming , contoured buffer strips , or terracing (sloped acres with erosion control/total sloped acres)	<input type="checkbox"/>
	x	Minimize bare soil in non-cropped areas by using vegetation , mulch , or gravel	<input type="checkbox"/>
<i>Structural Non-Treatment BMPs</i>			
x	x	Protect ditches from erosion using vegetation , rock placement or geotextiles, or wattles placed at intervals	<input type="checkbox"/>
x	x	Use grassed waterways	<input type="checkbox"/>
x	x	Use vegetated filter strips	<input type="checkbox"/>
<i>Optional Treatment BMPs</i>			
x	x	Runoff is treated with sediment traps , detention/retention basins, bioreactor, or constructed wetlands	<input type="checkbox"/>
